Choose **your** Kal

LIGHT ☒ DARK

Installer Images

- ✓ Direct access to hardware
- ✓ Customized Kali kernel
- ✓ No overhead

Single or multiple boot Kali, giving you complete control over the hardware access (perfect for in-built Wi-Fi and GPU), enabling the best performance.

Recommended

Virtual Machines

- ✓ Snapshots functionality
- ✓ Isolated environment
- ✓ Customized Kali kernel
- ✗ Limited direct access to hardware
- ✗ Higher system requirements

VMware & VirtualBox pre-built images. Allowing for a Kali install without altering the host OS with additional features such as snapshots. Vagrant images for quick spin-up also available.

Recommended

ARM

- ✓ Range of hardware from the leave-behind devices end to high-end modern servers
- ✗ System architecture limits certain packages
- ✗ Not always customized kernel

Mobile

- ✓ Kali layered on Android
- ✓ Kali in your pocket, on the go
- ✓ Mobile interface (compact view)

Cloud

- ✓ Fast deployment
- ✓ Can leverage provider's resources
- ✗ Provider may become costly
- ✗ Not always customized kernel

Kali Linux **VMware** & **VirtualBox** images are available for users who prefer, or whose specific needs require a virtual machine installation.

These images have the default credentials **"kali/kali"**.

The screenshot shows a web browser window displaying the Kali Linux website. The page is titled "Pre-built Virtual Machines" and features a navigation bar with links to "Installer", "Pre-built VMs", "ARM", "Mobile", "Cloud", "Containers", "Live", and "WSL". The main content area includes a heading "Pre-built Virtual Machines" and a subheading "Kali Linux VMware & VirtualBox images are available for users who prefer or whose specific needs require a virtual machine installation." Below this, it states "These images have the default credentials 'kali/kali'." and a link to "Virtual Machines Documentation". The page displays four recommended virtual machine options: VMware, VirtualBox, Hyper-V, and QEMU. Each option has a "Recommended" badge and a download link. The VMware option is highlighted with a blue border. The bottom of the page shows a Windows taskbar with the search bar and several application icons.

Pre-built Virtual Machines

Kali Linux VMware & VirtualBox images are available for users who prefer or whose specific needs require a virtual machine installation.

These images have the default credentials "kali/kali".
